CALL: LACEGAL project will fund up to 4 early-career researchers with up to 2500 euros to cover the expenses to attend the '8th ICE Summer School on Observational Cosmology'.

The **8th ICE Summer School on Observational Cosmology** will take place at the Institute of Space Sciences (ICE-CSIC), located on the campus of the Universitat Autònoma de Barcelona in Bellaterra (Barcelona, Spain), from July 7 to July 18, 2025.

LACEGAL project (*Marie Skłodowska-Curie grant agreement number 101086388*) will fund up to 4 early-career researchers from the network with up to 2500 euros to cover the expenses to attend the school: flight, accommodation, and other local expenses.

The awarded will be young researchers whose home institutions are located in Latin America or China.

Those interested must indicate their interest in the Summer School application form.

The criteria for awarding the scholarship will be based on the student's curriculum, as well as country and gender balance criteria.

The deadline is March 31, 2025.

The Scientific Organizing Committee of the '8th Institute of Space Sciences Summer School on Observational Cosmology'
